### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: the prior art of record includes Vidal, et al. (U.S. Patent number 5,156,496), which teaches an erosion control structure with horizontal and vertical rods, with bent ends, and a silt fence placed adjacent the rods. Bernstein (U.S. Patent number 3,423,072); Lavelly (U.S. Patent number 697,259); and Glutting (U.S. Patent number 4,773,437) teach similar structures. The prior art of record fails to teach such a device as called for in claim 1 including vertical and horizontal rods, the alternate vertical rods having bent portions, and a sheet of silt fencing held by the bent portions and the extending portions at the top of the rods.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
